

REMARKS

The claims are modeled on those originally filed and correspond to a non-elected invention in the parent cases. For completeness of prosecution, applicants note that with respect to variants now included in claim 42, the claims are amended to be directed to a single invention and simplify prosecution. New claims 42-51 are fully supported by the specification as filed. No new matter has been added, and entry of the amendment is respectfully requested. Examination on the merits is now requested.

In the unlikely event that the transmittal letter is separated from this document and the Patent Office determines that an extension and/or other relief is required, applicants petition for any required relief including extensions of time and authorize the Assistant Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to Deposit Account No. 03-1952 referencing docket No. 511582001111.

Respectfully submitted,

Dated: March 23, 2004
